

Agora Legal: Intelligent and efficient ERP solution dedicated to the **digital management** of **Law firms**.

AGORA LEGAL

Discover some of the many benefits you can enjoy with the Agora Legal software suite.

Entirely designed and pre-configured to meet the operational specificities of the sector, Agora Legal offers a wide range of advanced features as standard, guaranteeing easy and efficient management of all the activities of lawyers.

Electronic Document Management

Centralise the management of your documents with our reliable and intuitive EDM solution offering the possibility to search and access your files in a few clicks.

Deadlines management

Take advantage of a detailed schedule with extensive features to manage all your deadlines and be prepared for each of your commitments.

Mandates follow-up

Benefit from a digital monitoring of the files in progress and assess, in real time, their situation and evolution.

Timesheets

Enter your services easily with our Timesheets module and its clever stopwatch feature.

Conflicts of interest

Identify potential conflicts of interest with an advanced multi-criteria search engine.

The seamless integration of all modules allows you to automatically update your accounting and see the financial situation of a file at a glance. Additionally, all partners are able to view the available client information in real time.

Your data circulate easily, allowing you to optimise all your business processes, save precious time, avoid double entries or errors and save on potential extra development costs.

In addition, seamless integration with the Office 365 suite offers you, for example, the possibility of synchronising your deadlines with your Outlook calendar and creating all your documents (letters, invoices, etc.) in line with your corporate identity using Word templates.

Manage the organisation of your e-mails directly via Outlook. Thanks to integrated artificial intelligence tools such as machine learning, you can opt for a classification based on suggestions that are refined over time or benefit from a fully automated classification and find your e-mails directly in the right customer file.

Upon login, a fully customisable Dashboard allows you to see at a glance your recent activities and find your data clearly organised in a user-friendly environment with comparative graphs.

This software suite is available as stand-alone modules or fully integrated into a powerful, scalable package, ensuring a progressive expansion and investment.
