

Swissdec approved and ISO 20022 certified, this payroll management module allows you to process an unlimited number of salaries in a fluid and efficient way thanks to a wide range of features that can be fully configured according to the needs of your company.

Key features

- Advanced configuration of numerous tables (cap, rate, tax, private, etc.)
- Anticipated entry of employee data
- Control of the AHV code
- Validity check of the various personnel fields
- Hide selected employees (sensitive persons, management)
- Family allowances per child
- Temporarily deactivate an employee
- Distribute costs over seven cost centres
- Multiple payment locations for salaries
- Electronic payment via XML file (ISO 20022 standard)
- Create and program your own salary types
- Criteria application on salary types
- Define the order in which the salary types appear on the statements
- Additional anticipated and integrated entries from monthly variables
- Calculation of Gross to Net
- Generate accounting journals for transfer to third-party general accounting
- Export data to the MS-Office suite
- Integration with our general accounting
- Summary by salary type, cost centre and employer's share
- Issue Swissdec compatible certificates
- Generate and print annual report and salary certificates

Flexible and powerful, our modules are available individually and can be used independently. However, it is also possible to combine them while maintaining full integration.

The deployment of our ERP is organised around your operational priorities and continues at your pace, ensuring a progressive investment according to your business needs.

In order to guarantee our customers an ever more efficient solution, we are constantly listening to their inputs ; as a result, Agora is always evolving and we are continually improving its modules.
